

# January 1

---

## Verse 1

I'm innocent, I swore to be  
Made no mistakes, I kept my conscience clean  
I protected you, I protected me  
And told all our friends just to avoid a scene

But this is where I begin to fall  
Finding I'm human...guess I'm mortal after all  
You see this poker face? Just behind these eyes...  
Anger and sadness I can't disguise

## Chorus

So I hope and I pray  
That I can soon be done  
Like you are today  
by January 1

## Verse 2

Almost a year, but in some ways  
It feels like ten, or it can feel like days  
Well I cheated me when I said to you  
I understand, do what you gotta do

So effortless the way you moved along  
Left me behind to wonder where it all went wrong  
Well I made my peace, but I held my tongue  
And now it's time these words get sung

## Chorus

So I hope and I pray  
That I can soon be done  
Like you are today  
by January 1

## Bridge

All along we'd never say the words we mean  
We let it go on and landed somewhere in between  
A friendship and a dream

## Chorus/Outro

So I hope and I pray  
That I can soon be done  
Like you are today  
by January 1

Yes I hope and I pray  
That I can soon be done  
Like you are today  
by January...
