

Turn Away

Verse 1

He swears he hears a sound from behind
Quickly turns around but there's no one to find
And he's walking home alone at night
Wondering why he's feels so afraid all the time

Verse 2

Its 11 when he puts out the lights
Turns on the TV like he does every night
And he's watching through his closing eyes
While they read him a bedtime story so frightening

Chorus

Oh the visions in his head
The last thing before bed
He just can't turn away

Verse 3

She tunes in just to check on the rain
When suddenly she's caught up in a story of pain
Now she's locking all the windows down
Determined not to be another victim found

Verse 4

In an empty parking lot at the bar
The last light burns out as she walks to the car
And she's rushing trying to get in the door
She knows what can happen cause she's seen it before

Chorus

Oh the visions in her head
The last thing before bed
She just can't turn away

Bridge

Don't you see what it does to us?
Don't you feel what they do to us?
Reputation, America: "There's always something more to fear"

Chorus

Oh the visions in our heads
The last thing before bed
We just can't turn away
We just can't turn away
Let's turn away!
